

## TOPAKUSTIK® type 29/3 M - data sheet

TOPAKUSTIK® type 29/3 - the popular type

This very popular and frequently used groove type combines beautiful design and good noise absorption. This product is able to achieve a very good effect as a ceiling element also in the low frequency range.

### Planks

Thanks to the precise tongue and groove connection, planks result in an attractive surface with a joint-free appearance, because the connecting joint matches the dimension of the grooves. The planks permit simple and flexible assembly. They can be installed by stapling to a timber batten or clamping to a T-bar with TOPAKUSTIK® clips.
